Addendum #2
October 7, 2003**

Ladies/Gentlemen:

This Addendum is being issued to amend and clarify certain information contained in the above named IFB. All information contained herein is binding on all offerors who respond to this IFB. Specific parts of the IFB have been amended. The following changes/additions are listed below; new language has been double underlined and marked in bold (i.e., **word**) and language deleted has been marked with a strikethrough (i.e., ~~word~~), unless otherwise noted and directed.

Insert: Section 2.4.10: NEW

2.4.10 Acceptance of all software will occur upon completion of the performance period. Receipt and installation of the product at the delivery/storage location does not constitute acceptance. The State requires a 30-calendar day performance period after installation before the State accepts the software from the Contractor. During the performance period, the software must perform as contracted. If the software fails during this period the Contractor may, at the Authorized User's sole option, be ordered to replace the failed software or terminate the order at no cost or claim against the Authorized User.

Date Issued: October 7, 2003
